

# Closing tabs

Tom Rochette <tom.rochette@coreteks.org>

December 21, 2025 — [77e1b28a](#)

## 1 Why tabs are kept open

- Want to read but
  - Too long -> Transfer to pocket
- Want to watch but
  - Too long -> Add to a youtube watchlist (which I'll never watch)
- I need them open to quickly enter data
- I want to watch them again and again
  - Download with youtube-dl and watch using VLC
- Would maybe read one day, but definitely not now (very low priority)
  - Transfer to pocket

## 2 Rules

- If a tab is scanned more than 5/10 times, it goes into the backlog bin
